To Whom It May Concern

I've used the services of Mammoth Restoration at Thaddeus Stevens College for the past two years and have had no issues as they were very prompt to respond and all their employees were polite and very knowledgeable. The follow up and reporting on any of the work was exceptional and it allowed me to keep all staff at the College updated daily.

The projects I used them for ranged from Water Losses, Mold Mitigation, Fire & Smoke Damage, Reconstruction, and General Cleaning. They were also there for me when I would call ask for someone to stop by the school to consult on any issues we were not sure about and give us some guidance on how to proceed.

I would highly recommend Mammoth Restoration if you need a Restoration Company.
